

# CONECTOR DE RED DE DIAMANTES ■

Cat. n.º 830dm

## Description

Paskal high quality net connectors are designed to provide the most reliable and durable connection to netting structures: the nets lifespan is extended, significantly reducing costs.

## Advantages

- Designed with a broad surface area and rounded edges to protect the net
- Equipped with a central locking pin that prevents the connector from becoming unfastened, even under severe conditions
- Ongoing crop protection from the weather and any external threats
- Quick and efficient installation for all types of nets
- Reliability and top quality
- UV protected and long lasting
- Nets lifespan extension
- Fitting to different type of nets
- Recommended distance between the connectors: 30-50 cm

## Usage Recommendations

The usage of this product depends on the location (if against birds, wind, or other protection). Please follow the installer's recommendation.

## Cultivos

Frutas del  
huerto

Vides/Bayas

## Uso

Anti-  
granizo

## Color

Negro

## Material

Polipropileno - protegido contra rayos UV

## Technical Specifications

### Weight (kg)

9.96

### Size (diameter or length)

55 mm

### Durability

Multi-season

### Storage

In a cool, dry place, away from heat, away from direct sunlight. Storage temperature should not exceed 60°C.

## Installation Temp. Range

---

Above 5°

---

## Packaging

---

### Box QT (K)

0.8

### Box weight approx. (kg)

8.85

### Boxes per pallet 40/HC
